TELEGRAMS

(By Havas Agency)

London, 14.—An equitable arrangement having been arrived at, the omnibus drivers' strike has come to a close.

Basle, 14.—A serious railway accident has occurred near this city. A bridge gave way and a train was precipitated from a considerable height.

Basle, 15th—One hundred killed and 150 injured in the accident yesterday. The news has caused consternation here.

Rome, 15th—In the course of the debate on the estimates of the Foreign Office, the Premier, Signor Rudini, stated that the Triple Alliance countenances armament on a moderate scale, and he thought that a Ministry without a military policy was impossible. Nevertheless, the Minister emphasized the peaceful aim of the Alliance.

Rio Janeyro, 15th—The ordinary session of the Chamber was opened to-day. Having alluded to friendly relations etc. with other powers. President da Fonseca called attention to the growing increase of the revenue, and expressed the hope of balancing the budget without having recourse to increased taxation. H.E. recommended the reform of the election laws and the immigration laws, as well as reform in judicial organization. He advocated the leasing of the railways and the development of the shipping trade. In conclusion, he promised to lay before Congress the treaties of the Provisional Government, and in particular that with the Argentine Republic in regard to the Misiones Question.

Montevideo, 15—The Rio Pardo has arrived with the balance of the Brazilian loan.

Dr. Ellauri has the Colonia Railway question to settle in London.

The weather has cleared up. The Bolsa firm. Nothing new in politics.

ARGENTINA IN LONDON.

Letters from London of the 19th May give a gloomy account of the aspect of affairs connected with this Republic. The people of the Stock Exchange are now coming to believe what we said last December, that the Rothschild-Liddersdale arrangement was only a temporary peace of patch-work. In that arrangement nothing was kept in view but the interests of the once great house of Baring Brothers, and to this end the real condition of Argentina was not fairly stated. Quite the reverse, the London papers persistently assured the British public that alarmists in Buenos Ayres were depicting the crisis in exaggerated colors, and that the financial troubles were of a transitory character.

Lord Rothschild declared that as soon as the negotiations about the Moratoribus and the Bateman Legacy were concluded the gold premium would fall to 40 per cent: it was then 150 per cent, and instead of falling to 40 it has run up to 300 per cent. When Lord Rothschild saw the error of his anticipations he ought to have convened the representatives of the guaranteeing banks and the holders of Argentine bonds and frankly addressed them in such words as the following:—

"Gentlemen. I regret to see that our Moratoribus has been of little service to Argentina, and that things at Buenos Ayres are daily getting worse. We must make a great effort to help our Argentine friends."

In what way the London bondholders could help us is a point open for discussion. But if they really fancy that the Moratoribus has helped us they are mistaken. Here we are in June, the crisis still marching on, and Congress debating a general suspension of payments to remedy our troubles. Are there any Optimists left among us, to speak a word of promise in so exceedingly grave a situation?

THE COLLAPSE OF PORTUGAL.

The kingdom of Portugal has experienced one of those terrible reverses that usually follow carelessness in the public finances. A general Moratoribus has been proclaimed for 60 days. This has caused great exitement on all the money markets of the world, just as when Baring Brothers collapsed last November. According to an English paper of May 18th, "New York lays "the blame on London, but the London "Stock-Exchange says that Paris is "really the culprit, having advanced "money recklessly on Portuguese se-"curities. On the other hand, Paris "seeks to lay the blame on Berlin".

It is very surprising that the Havas telegrams have made no mention of the occurrence, although it has shaken most of the money markets of the world. The condition of Portuguese finances has been for a long time unsatisfactory: in 1882 the kingdom was saved from bankruptcy by a new loan issued at a ruinous discount of 50 per cent. It was then stated that in 45 years the budgets of 42 years shewed deficits; in other words the system of finance was one of pilling up deficits, till the founded debt reached 140 millions sterling.

Portugal is by no means a rich country, although the population, as a rule, is much more industrious than that of Spain. It cannot support a debt of £27 sterling per inhabitant, the interest on which absorbs 44 per cent of the revenue of the kingdom. The budget for 1890, for example, shewed thus—

Receipts.	Milreis.
Customs-duties	11,300,000
General revenue....	28,800,000
Total	40,100,000
Expenses.	
Interest on debt	17,700,000
Administration.....	22,500,000
Total	40,200,00

The English holders of Portuguese bonds will probably propose some arrangement like Lord Rothschild's Argentine Moratoribus, to fund coupons for 3 years, but this is only putting off the "mauvais quart d'heure," since Portugal in 1894 will be no better able than she is to-day to meet her engagements. It would be more salutary and straightforward to wipe out half the debt, and thus reduce the annual burden by 50 per cent.

Whoever invented this system of Moratoribus ought to be treated as an enemy to mankind. It cripples an individual or a country, and opens a door for fraud. If the debtor be honest he is condemned "to work dead horse" for a number of years; if dishonest he avails himself of such an arrangement to refuse paying obligations that he is well able to meet.

In the case of Portugal the present Moratoribus is singularly unfortunate, as it will increase the disorder of the finances and the public discontent. Ever since the declaration of a republic in Brazil, the idea of overthrowing the throne of Portugal has gained ground. Hence it is very possible that the Portuguese may imaginge the financial condition would improve by turning out King Charles and proclaiming a republic. The experience of Brazil ought to shew them that such expectations may turn out illusory. But, when men's ideas are disturbed there is nothing more dangerous than unsatisfactory finances.

INFLUENZA IN ENGLAND.

Mails received yesterday bring us the unwelcome news that Influenza is again very prevalent in London and the rest of England, after an interval of twelve months. Among the victims are Dr. Magee, archbishop of York, Mr. Barbour M. P. for Paisley (formerly of Buenos Ayres) and Lord Cavendish. The Prince of Wales and Mr. Gladstone are happily recovering, as well as some of our friends from Buenos Ayres at present in London. There is every reason to hope that the epidemic will disappear on the approach of summer, the months of April and May being always among the most trying in England in connection with bronchial or chest affections.

Strange to say there seems to be no revival of Influenza on the Continent or in North America. It is perhaps owing to climatic effects that it has again appeared in England, a sudden change of temperature being invariably its precursor. It seems to have no preference as regards age, sex or nationality, but strikes down the strongest men as well as children. Our lamented friend Mr. Barbour was perfectly healthy and in the prime of life. The most dangerous time is when the patient has apparently recovered from the disease, the least indiscretion being then too often fatal.

We may here observe that it is frequently conveyed across the sea in letters; at Montevideo, for instance, and, elsewhere it made its first appearance among the Post Office clerks. Hence we recommend that during the next two months all letters on arrival in Buenos Ayres should be pierced with a sharp knife before delivery; or if this be considered inadvisable let the Correo issue a notice advising all persons receiving letters from Europe to open them in the open air, and not in a closed apartment. The microbes or infusoria will be perfectly harmless in an open "patio."

MAILS FROM ENGLAND.

FINANCIAL AND GENERAL.

(From our own Correspondent.)

London, May 16.

Matters are quieter now, but all through the week the Stock Exchange has been in a state bordering on panic, caused by the practical bankruptcy of Portugal, the ticklish condition of the Paris market, and of serious rumours of difficulties nearer home. Two very large London houses, one financial and one a giant in the China and East India trade, have been freely spoken of. It is stated today that the financial house will follow the example of Messrs. Murrieta and turn itself into a limited liability company, and that as for the Indian house, supposed to have been compromised by a Parsee failure in Bombay, the facts as rumoured were incorrect, the house having a balance in hand on account of the Parsee firm. The raising of the Bank rate to 5 per cent. naturally widened the cracks in the market, and though the look-out reports to-day "all clear," there is still a very uneasy feeling. As for Argentines, they are affected directly by the rise in the gold premium in Buenos Ayres reported today to be at 290 per cent. It is melancholy to look down the quotations of Argentine securities and note the drop in first-class holdings, not to speak of Cedulas P at 10¼. From the telegrams we receive from Buenos Ayres we are fearful of fresh issues of paper; the fear is confirmed by the rise in the gold premium. Under existing circumstances, you cannot expect to get much assistance here, whatever happens.

Speaking of the Portuguese crisis and the situation in general the *Statist* observes: "We would remind our readers that long before the final crash in the Argentine Republic there was a recurring panic on the Buenos Ayres Bolsa and even fighting in the streets. Is it not at least possible that something of the same kind may happen in Portugal? .....At any rate it is now clearly the duty of the Bank of England to take precautions."

In regard to London the same paper goes on to say: "All the information that can be obtained goes to show that the houses whose names have been freely used are perfectly solvent. The fact, however, remains that distrust is so great in London that every accident revives alarmist rumours.....Besides all this, we must not forget that the Bank of England is not in so good a position now to cope with a crisis as it was last year. In consequence of its having to pay the Baring acceptances as they fell due it has had to lock up immense sums in unrealisable securities, securities that must continue unrealisable for a considerable time."

You know what securities the Messrs. Baring had in their portfolios. I think Cedulas to a large extent, as well as National Bank Shares were amongst them. The *Statist* is, however, pessimistic, and is perhaps nervous on the guarantors' account. It gives the following black list: "It is reasonably certain, therefore, that the great financial houses will have to include Portuguese amongst the stocks that are for the time being unrealisable; and it is to be recollected that the list of these is growing anxiously large. Already it includes Argentine, Uruguayan, Brazilian, Chilian, Portuguese, while it is at least possible that before long Spanish, Greek and Mexican may have to be added."

From the further remarks of your dapper contemporary on "The Foreign Market," I gather that it is biding its time to go in for cheap investments which Paris and Berlin will have to get out of before long. It discusses also the possibility of Portugal as well as Argentina adopting a silver standard of value. The aristocratic gold countries will be The United Kingdom, the United States, France, Germany and Holland. The *Times* reports difficulties in Germany, particularly in Cologne.

You will see in the *Times* and also in the *South American Journal* the report of the directors of the Buenos Ayres Water Supply and Drainage Company. The terms of rescinding are what have been generally known. The directors seem to make the best of a bad job, and when the terms are submitted to a meeting of the shareholders, we shall hear their opinions which under the circumstances cannot much differ from those of their directors.

There is not much to relate in regard to general topics, and as the Whitsuntide holidays have commenced, I shall not write until the 20th per "Elbe," which ought to arrive before the French Mail.

The Chilian civil war has assumed an additional and universal interest from the expected encounter between the Esmeralda and the U. S. warship Charleston which is in pursuit of the Itata;" but one is inclined to agree with the editorial in the *South American Journal*, repudiating on behalf of the Chilian insurgents the absurd notion that in addition to their intestine troubles, they would wilfully increase their difficulties by coming into conflict with the United States. The two ships seem pretty equally matched, the United States ship having the advantage in speed, thickness of armour and may be in the manning and command. The Chilian vessel has a small superiority in armament.

* * *

At home, the influenza absorbs public interest. Parliament in a moribund condition continues to squabble over the Irish Land Purchase Act, whilst the Irish political party under the lead of Mr. O'Dwyer Gray is making an effort at reconciliation. It was rumoured that Mr. Gray had seceded from the Parnellist section. This does not appear to be correct. It is more likely that Irishmen Nationalists—of all colours, will in view of a general election see the necessity of pulling together. By deaths and resignation, the bye elections are increasing in number, and much depends upon the results. If they go Liberal, the Government will stick to office to the last hour accorded to them by the Septennial Act.

Meanwhile, Parliament has expelled Captain Verney, and given notice of expulsion to Mr. de Cobain unless he surrenders. The Attorney-General—that fellow Webster—after fighting and tricking to the last, has agreed to hand over the impounded papers in the Hurlbert case to the Solicitor-General. Telegrams from New York announce that great efforts are being made to discover the so-called "Wilfred Murray," Mr. Hurlbert's double, but so far without success. Wilfred Murray fades more and more into the "ewigkeit," and Mr. Hurlbert will probably find it necessary to attend to urgent private affairs abroad.

* * *

Whilst the poor Prince of Wales has been confined to his room through an attack of "catarrhal fever"—not very acute—his financial affairs have been the subject of criticism in society journals. At the instance of Colonel Knollys, the Prince's secretary, "Edmund," with a lively recollection of imprisonment for libel, had to apologize in the *World* for inaccurate accounts of the Prince's private pecuniary difficulties. "Henry" was shocked at "Edmund," and gave us the real state of the heir apparent's monetary affairs. It cannot be said they lost interest by the intervention of *Truth*, which admitted that to clear a mortgage on Sandringham the Queen had to fork out to the tune of "six figures." The lower order of papers, such as the *Star*, are not satisfied with Colonel Knollys' explanations, and exclaim, "What about Baron Hirsch?"

* * *

If I go on I shall be *detated* like the Bamptus Lecturer, the Rev. Charles Gore, author of "Lux Mundi," who has been delated by the Vicar of St. Mary's, Oxford. May I add to this ecclesiastical intelligence that the *Tablet* supports "free education."

They say that there is only one man in the church, who towers above the rest of his colleagues, who is fitted to be the successor of the late Archbishop of York. That man is Dr. Wescott, Bishop of Durham. Now, what does this towering Anglican dignitary say? What has he just said? This:—"I point to the National Church as a great ideal and as a corrective, as an integral organ of the national life, to that individualism which has had its day."

I have not bothered you much with socialism lately, but cannot ye see that from the highest pinnacles of the Church down to Joe Chamberlain, who is fiddling with a scheme of national insurance I have found in the preface of an old school-book of mine, Hislip's "Equatorial Arithmetic," the world wags in one direction. Even the Pope's recent encyclical does not condemn us.

THE CHILIAN REVOLUTION.

After a few days' silence the telegraph again came to the front yesterday with some news from our Transandine neighbours. It appears that hostilities may break out again at any moment in the North. The Esmeralda has left Panama, well-laden with provisions and arms. The Imperial—the Balmacedista transport—landed forces in Coquimbo, which has been considerably strengthened and placed on a sound footing of defence. The torpedo-catchers Lynch and Condell are cruising about in Northern waters. As we mentioned in a recent issue, they attacked Pisagua, but withdrew rapidly in view of the determined resistance ashore. It is probable they will anchor off Coquimbo. A telegram was received yesterday by a leading Chilian resident here stating that the Mapocho had been disarmed by the Peruvian authorities, and that in the recent attack on Pisagua by the Lynch and Condell no one was hurt. The Mapocho is a steamer of the South American Steam Navigation Company. Balmaceda chartered her and ordered her to fly the British colors. It is owing to this last named circumstance, no doubt, that the Peruvian authorities protested, and finally, as we have already stated, disarmed the vessel. The disarmament of a merchant vessel consists in landing her crew, so that the Peruvian authorities had no very difficult task to accomplish.

According to another telegram received yesterday, Mr. Henry MacIver, a distinguished member of the revolutionist party, who was in this city not long ago, has arrived in Huanchaca, on his way to the scene of action.

LATEST FROM MONTEVIDEO.

(From the "Montevideo Times.")

The Representatives, by the resolution they passed in the sitting of Thursday, have cut short for the present one abuse which, if not so formidable as that of pensions, at all events formed a most absurd and improper item in the expenses of such a State as this. We refer to the petitions for State grants or pensions to assist the applicants in studying some career—generally artistic—in Europe. Not so long ago, every young person who showed a little above the ordinary talent for music, painting, sculpturing, or the like, thought himself or herself thereby justified in applying for a State grant (to pursue their studies in Europe.) With the aid of a little (backstairs) influence the petition was almost certain of success.

Dr. Alberto Palomeque has written to the papers denying that he has any intention of publishing a manifesto respecting his separation from the partido Nacional, or of attacking his former colleagues Drs. Aguirre and Segundo, from whom he parts with every feeling of respect. He has also excused himself, on the ground of work and health, from forming one of the Committee of the projected Liberal Union.

Small pox seems to be reviving. Yesterday there were registered fifteen new cases and three deaths.

We hear that with regard to the sums assigned in the estimates of the Ministry of Foreign Affairs to the support of the Church, at present broken up into details, it is proposed to erase the details and merely vote a lump sum, to be regarded as the contribution of the State towards the support of the Roman Catholic Church, the said sum to be handed over to the Bishop, who will distribute it as he thinks proper, giving a yearly account of the same.

ARGENTINE RAILWAY GUARANTEES.

Investors in Argentine Railways are, at the present time, feeling some anxiety as to the rank of their securities. The Argentine railways, as we have recen ly pointed out, may be classed in three groups: (1) Those which have a National Government guarantee for a fixed period; (2) those with a mixed National and Provincial Government guarantee, or Provincial Government guarantee only; and (3) those without any guarantee at all. In the third group no question arises as to priority of securities, as Mortgage Debentures are a first charge upon the earnings, Preference Stocks and shares have next to be satisfied, and, lastly, any residue falls to the Ordinary, or it may be the Deferred capital. The subject of guarantee does not arise, and it is merely a matter of working results. But complications come in with regard to group 1. An instance of a complication is afforded in the case of a railway on which the total sum guaranteed per annum by the Government is, in case of it being paid in full in cash, sufficient to provide for the Debenture Stock and the Preference capital. The Debenture Stock is a first charge on the railway. In case of the Company receiving Government Funding Bonds for three years, and such bonds handed by the Government to the Company, at their full value, being sold for cash, the question arises whether the proceeds of the sale will be applied to the satisfaction of the interest in cash on Debenture Stock to the full extent, or whether the proceeds of sale of Government Bonds will be distributed "pro rata" to the holders of Debenture Stock and Preference capital. We should imagine that the Debentures must be first satisfied. Let us assume that the Company has £110,000 guarantee for a number of years. Its capital is, say,

£1,000,000 Five per Cent Debentures,
£1,000,000 Six per Cent Preferred Stock.

The cash guarantee provides the Five and Six per Cent. in full. But the payment of the guarantee by £110,000 of Funding Bonds realising in cash, say, £80,000, such cash would, we imagine, be applied—£50,000 to the Debentures and £30,000 to the Preferred Stock, the latter, consequently, getting 3 per cent. instead of 6 per cent.

It may be useful to briefly summarise the position of companies having National Government guarantees.

The Cordoba Central Railway Company took over in February 1889, the old line of the Central Northern Railway undertaking built by the Government, and on £4,166,000 of which the Government guaranteed 5 per cent. interest in gold for a period of 15 years. The Cordoba Central Railway Company, prior to the acquisition of the Central Northern section, had, in respect of the original undertaking, a million of capital—£400,000 Five per Cent. Debenture Stock, £500,000 Seven per Cent. Preferred, and £200,000 Deferred capital. The original million of capital above referred to bore no guarantee, and interest and dividends are contingent on results of working. The interest on the Central Northern debentures has just been paid part in cash and part in scrip of the Funded Government Loan.

The Argentine Great Western Railway Company has £2,370,000 Five per Cent. Debenture Stock, £500,000 Five per Cent. Preferred and £500,000 Ordinary capital. Sanction was given to the creation of £500,000 equipment Debentures. The National Government guarantee for 20 years is equal to 5 per cent. on £2,780,000.

Ranking after the Five per Cent. Debenture Stock, the Argentine North-Eastern Railway Company in construction has £1,500,000 Preferred and £500,000 Ordinary capital. The Government guarantees £300,000 for 20 years, from the opening of the railway in sections, a sum which on completion of the line would, if cash were received, suffice to pay the interest on the Preference capital after providing for the service of the Debentures. But the question arises, whether the Debentures handed to the contractors for work done, and the £1,800,000 issued to the public, can call for satisfaction of full interest in cash at the expense of the Preference capital. The guarantee on the total mileage of the Company, beyond covering the six per cent. on £1,500,000 Preferred Share capital, was to provide 5 per cent. on £4,200,000 total intended issues of Debenture Stock.

The total capital of the Bahia Blanca, and North-Western Railway Company comprises £1,350,000 Six per Cent. Preferred capital, and £650,000 of Ordinary capital. The Government guarantee on the total mileage is £235,813. The Company has power to issue Debentures, or Debenture Stock, absorbing £154,813 for annual interest, so that the Debenture Stock and Preferred Stock will absorb the total amount of cash guarantee. The guarantee is based on interest at the rate of 5 per cent. per annum on $20,000 gold upon each kilometre completed, and the line is contracted to be finished by April, 1895. The securities created, Debentures Preferred and Ordinary, were to be handed to the contractors as issued, on completion of the line in sections.

The capital of the Buenos Aires and Pacific Railway Company consists of £1,000,000 in Seven per Cent. Preferred Shares, and £1,312,340 in Seven per Cent. Debenture Stock. The Debenture Stock had a first charge on the net revenue of the railway. The Government guarantee of 7 per cent. amounts to £161,863 for 20 years, or 7 per cent on the above-named capital. We should imagine the Debenture holders will be held to be entitled to 7 per cent. in cash from proceeds of sale of Government Funding Bonds, to the detriment of the Preferred capital.

All the above railwaya, with national Government guarantees, are public companies with varying terms of guarantee. In view of eventual repayment of sums received as guarantee, they have, with the exception of the East Argentine Company, to keep accounts with the Government in respect of their net earnings, and are only allowed 50 or 55 per cent. (as a rule) of gross receipts for working expenses.—*Statist.*

BRITISH HOSPITAL "COMFORT FUND."

In spite of the "English weather" we have been enjoying lately, the "Salon Italiano" was crowded to overflowing on Saturday night to witness an Amateur Theatrical Performance got up by Mr. and Mrs. Goodwin in aid of the above fund. The pieces selected were "Perfection" and "Barbara," and both plays and performers were well chosen, to judge by the applause with which all were greeted. The scenery was arranged entirely by the four ladies of the company, under the direction of Mrs. Goodwin, the rooms being decorated as only ladies know how; and the changes were quickly effected. In "Perfection" Mrs. Goodwin sustained with great success the difficult character of Kate O'Brien, while Miss Troutbeck as Susan was irresistible. Among the men, Messrs. Scott and Hemans were especially noticeable for the clever interpretion of their parts.

Jerome K. Jerome's pretty little play of "Barbara" was much appreciated by the audience, who missed none of the jokes, and were at times moved almost to tears by the pathetic touches. This was entirely due to the excellent acting of Mrs. Percy J. Clarke as Barbara, and Miss Maud Troutbeck as Lilie, who both looked perfectly charming.

Among the audience were H.B.M. Minister and Mrs. Pakenham and party, Consul Bridgett, Messrs. Anderson, Hill, Hunt, Watson and numerous well-known faces from town, who shewed by their presence on such a muddy night that they thought of the comfort of their countrymen in the Hospital.

It is expected that about $800 will be handed over to the fund, and thanks are especially due to the proprietors of the "Salon Italiano" who allowed the use of their pretty room without making any charge, and to the Belgrano Gas Co., who supplied lights to the hall and stage gratis.

LOMAS HARRIERS.

Mr. Editor,

I think most of your readers will thoroughly agree with your correspondent "Mitleid" in his remarks upon the so-called "Lomas Harriers." For upwards of thirty years it has been my luck to follow hounds in many countries, from the staghound on Dartmoor to the "currant jelly" dog in the antipodes, but never did I see such a burlesque as that "exhibition" at Lomas. I dare say "Mitleid" may be well informed as regards the "cruelty to animals," ridden as they were for the most part by inexperienced horsemen, but it is another phase of the proceedings to which I should like to refer. Is a ridiculous paper chase of this sort, up one muddy road and down another, to be held up as an example to our Argentine friends of English hunting, of which they have heard much? Let the promoters at least call their little game by its proper name and not defile the noble name of Harriers with

Lomas Mud.

Mr. Editor,

Although I should be glad to agree with all Mr. Pinchard says in his letter, I am afraid I must join issue with him as to the condition of the horses after the run I had an opportunity of inspecting five of them the following day, and all showed undoubted signs of having been overridden. There is, however, no reason why this should occur again if the "hunt" is conducted upon more sportsmanlike principles. By this, I mean that the horses should be got into better condition, and the runs considerably shortened. All hunting men know that hunters require as careful training in their way as racers do in theirs, and also that a fast run of over half an hour in the open without a check is a thing to be talked over for two seasons and remembered for many more. What I would suggest is that the runs should be limited to a maximum of thirty minutes, and if this should not be considered a sufficiently good day's "sport," let there be an interval for rest before looking for the "afternoon fox."

I think too a less ambitious notice of the run might have been an improvement, as it was rather calculated to undeceive foreigners who, whatever else they think of us, are at least prepared to believe us all born sportsmen. Although no doubt great amusement can be derived from the friend of our youth, it scarcely comes under the category of sport.

LONDON AND LANCASHIRE FIRE INSURANCE COMPANY.

The following circular is now being handed round.

Dear Sir,

I have the honor of informing you that the London and Lancashire Fire Insurance Company have taken over the entire business of La Seguridad, in which company you are insured against fire. I take the liberty, therefore, of asking you to be kind enough to renew your policy as soon as expired. I enclose a statement of the present situation of the Company.

Yours truly
pp. London & Lancashire Fire Insurance Company.
Manager.

Dear Sir,

The Board having decided to reinsure the business of this Company, I have the pleasure of informing you that the London and Lancashire Fire Insurance Company have taken over our business. This choice has been made in view of the opinion of the Board that the London and Lancashire Fire Insurance Company is one of the best British Insurance Companies in this market.

Allow me, therefore, to trust you will renew your policy with the London and Lancashire Fire Insurance Company.

Yours truly
Manager.

STATEMENT.

London and Lancashire Fire Insurance Company—

	£
Paid-up capital	193,407
Reserve	688,000
Calls to be collected..	1,740,668

In 1874 the premiums received by the Company amounted to £251,536, and the amount placed to the reserve fund was £33,262. In 1889 the premiums received were £587,084, and the amount placed to the reserve fund £540,930. In 1890 the premiums collected were £700,000, and the amount placed to the reserve fund £600,000. The premiums are highly advantageous, and all insurances are promptly liquidated.

Both companies are to be congratulated on the transaction, as the London and Lancashire receive the benefit of a carefully selected portfolio of insurances, while the "Seguridad" directors having deemed it advisable, in view of the present state of things, to liquidate that company, are fortunate in having been able to arrange a re-insurance of their risks with a company occupying such a leading position as the London and Lancashire does to-day in the River Plate.

THE LATE MR. BARBOUR, M.P.

With much regret we have to announce the death, from the effects of influenza, of Mr. William B. Barbour, M.P. for Paisley, which took place at Brighton on 13th ult. The deceased gentleman was well-known here, as the founder of Barbour Barclay & Co., and during his many years' residence gained the respect and esteem of all who had the opportunity of knowing his many sterling qualities.

The *St. James's Gazette* says:—

"Mr. Barbour went to Brighton on Saturday last, apparently recovered from the influenza. He went for a drive, and in the evening was found to be suffering from congestion of the lungs. He grew worse and died at two o'clock in the morning."

He commenced life as a cabinet-maker's apprentice in the workshop of his uncle, a Baillie, of Paisley. Afterwards he joined Geo. Bell & Co., of Liverpool, in which firm he became partner. Subsequently he came out here with his friend Robt. Barclay, and established the house row continued under the name of Barclay, McIntosh & Co. In 1874 he retired from the business and devoted himself to the study of political subjects, with the view of entering Parliament, for he never disguised his ambition of representing his native town, in which he succeeded in the year 1880. He was a Gladstonian in politics, and broad and tolerant in his views, and so independent in his action that latterly he came to be regarded by the Conservative party of the town as so worthy a representative that no opposition would have been possible in the coming general election.

RAILWAY ITEMS.

The Inspector of the Hydraulic Works of the Engineers' Department has just issued his report on the application recently filed by the City of B. Ayres Tramway for privilege to run its rails across the Riachuelo Bridge. The Inspector thinks the Company may be authorized to do so on the following conditions:—

(1) To keep the bridge (a provisional one) in a proper state of repair.

(2) To employ a personnel to facilitate traffic across the bridge.

(3) Only three cars per hour must pass the bridge for the present. In the event of other companies wishing to cross the bridge the Municipality to determine the number of cars that may pass in a given time.

(4.) The Company to observe the Municipal ordinances in regard to junctions, should other companies apply for authority to run their cars across the bridge.

The report of the Accountant of the N.R. Board on the guarantee account of the Argentine Great Western was yesterday laid before Government.

Some fresh rolling stock has arrived for the Peyrano branch of the Central Argentine Railway.

In the absence of Mr. A. C. Brown, Mr. Stuart, who has just come down from the Tucuman Extension, takes the management of the Ensenada Railway.

EDITOR'S TABLE.

The weather cleared up and the Gold Eagle cleared down yesterday in a fashion that made the Bulls feel like clearing out. Such a fall has not been seen since that of the Roman Empire. The sun was warmly welcomed on and off 'Change, on his reappearance after a week's absence. The passing of the Moratorium Bill in a hand-gallop by the Deputies made half the people in town feel as if they were standing on their heads, and the other half as if they had n't a leg to stand on.

We beg to thank those indefatigable caterers to the public appetite for news and novels, Messrs Mackern and Shine, for late home papers.

We regret to learn that Mr. Olmi, the popular auctioneer, was yesterdey swindled out of a piano worth $500 and a marble statue worth $800 by an individual who obtained them from Mr. O.'s clerk by stating that he had arranged the matter with Mr. O., who was absen at the moment. The fellow then sent the goods to another mart where they were sold; but the police were in time to stop the delivery. Mr. Olmi has heard that an English gentleman bought the statue, and would feel obliged if he would favour him with a call.

If there be among our readers any young lady seeking a place as Governess we know of an English family in the camp who would be happy to engage her at a good salary and give her a comfortable home. Letters may be addressed Westfield, STANDARD Office.

We received yesterday from London a letter for Mr. Akers, and will forward it on receiving his address.

In another column will be found the notice of the Amateur Dramatic performance to come off on the 26th inst. for benefit of the British and American Benevolent Society and the New Boys' Orphanage. The proprietors of the Onrubia theatre have generously ceded it gratis for the occasion. Tickets at Mr. W. Mackern's 233 Florida.

The "dancing morning" on board the U. S. warship Essex on Saturday was a brilliant success. By a most tasteful use of flags, flowers and canvas the spacious deck was turned into a ball-room. The merry dance was kept up till the shades of evening, to the strains of a splendid band. The lunch was superb. Amongst those present were the officers of the Tallapoosa and the Italian and Austrian men-of-war in port and the following families:—Baker, Barton, Garrahan, Beccar, Hume, Byrne, Hill, Hughes, Close, Dillon, Chandler, Lewis, Cunningham, Lapish, Casey, Lowe, McAdam, Stoddart, Morphy, Salmon, Morkiel, Sinistri, McLean, Thomas, Paterson, Newbery, Thursby, Plummer, Williams, Rothschild, Robertson and others.

We have before us a polite circular from the Circulo Mondolinisti Italiani, announcing an entertain

FERRO-CARRIL
NORD-OSTE ARGENTINO.
—:o:—
Secciones Monte Caseros a Mercedes y Corrientes y Saladas.
Esta Empresa, deseosa de fomentar el desarrollo de algunas industrias nacientes y la prosperidad de las regiones que sus lineas atraviesan, ha dedicado aprovechar las facultades que le confiere la Ley de Ferro-Carriles Nacionales para acordar provisoriamente y hasta nuevo aviso rebajas sobre el trasporte de algunos articulos de produccion y fabricacion locales, como ser maderas, leña, huesos, piedra, carbon de leña, etc.
Para realizar esta idea dejara de cobrar desde el 25 o/o hasta el 50 o/o del aumento en el flete que la corresponda segun el tipo del oro, mientras que este no sea menor de 250 o sea un premio de 150 o/o y siempre en relacion a la cantidad de carga que se desen remitir.
Como es indispensable que toda reduccion sobre los fletes aprobados por el S. Gobierno sea hecha de conformidad con la citada Ley, es necesario que se verifique un convenio precio, por escrito entre la Administracion y los cargadores de estos productos a cuyo efecto deben los interesados dirijirse a aquella, sea en Monte Caseros o en Empredado, segun corresponda el transporte a una u otra seccion, solicitando de la respectiva rebaja.
Estas reducciones de fletes comprenden a todos los cargadores, tanto a los que remitan grandes cantidades como a los que envien pequeñas, mientras no sean menos de un wagon entero, a fin de evitar que la concesion de este beneficio de lugar a monopolios.
La tramitacion para obtener la reduccion de los fletes es sumamente sencilla, bastando al efecto un simple cambio de cartas entre esta Administracion y los interesados en conseguirla.

Discounts continue at a stand-still. The banks do nothing, and in view of the Moratorium, which was passed this afternoon in the Deputies, there are very faint hopes of any revival in normal banking business for the next three months. The honorable Deputies, who appear to be more keenly alive to the requirements of the market than the whole body of merchants sanctioned the Moratorium Bill of the Senate; this moratorium to last three months and to be applied to the market as a dose of nauseous medicine to an ailing child, for the whole market opposes the bill and will resist the despicable bill. The market might as well go to sleep for the next ninety days, but for the honorable compromise of leading merchants not to avail of the Moratorium. Unfortunately "force majeure" will oblige many ruined men to take refuge in the Moratorium for if they are not paid how are they going to pay others? At the end of the ninety days we shall see how this patient and unfortunate victim—the market—stands; surgeons have done their worst to bring on a climax to find a plausible excuse for experimenting with some dangerous measure. This is as clear as a pike-staff and those who care to look ahead can see on the horizon those dreaded measures we have all been trying to avert for the last three months by means of patriotic loans, liquidation of State banks, etc.

Exchange ruled very high all day and very little business was done. Rates were quoted at 49d. and above. This snag-up in the exchange market must lead to importation of specie, especially as the periodical drawing in anticipation of the clip should begin at this time of the year. Paper rates of exchange are not quoted now; this system of quotation appears to have been completely dropped so far as operations in the market are concerned.

Mr. John Macdonald, of Villanueva, was welcomed to-day on his arrival from the South. He says that the rain has very much improved the condition of lands in the districts near the Salado. Both cattle and sheep are in very good condition for this time of the year. Cows are selling at $35 per head "cane y sebo," and fat wethers at 7 to 10$.

"Conformes," or cheques of the Provincial Bank, were quoted to-day at 30 to 32½ discount. Little or nothing was done in cheques of the National Bank.

The R.M.S. Elbe and the German steamer Belgrano have arrived in Plate. The former brings dates to the 23rd ult. from London. The Allan line steamer Phœnician has also arrived.

National Bank of Uruguay shares were quoted to-day in Montevideo at 23; this is a rise since last week.

The slump in the gold market continued with a vengeance at the second ring. The market seemed to collapse at one moment. A very large amount of specie was thrown on the ring, especially ounces ; ten thousand were banged away for to-morrow; the price opened at 58.50 and closed at 57.40, after touching bottom at 57.20. Over thirteen thousand sovereigns were sold at 18.30, touched bottom at 17.50, and closed at 17.80. The market closed heavy.

The following is a summary of the business effected in stocks and shares to-day at the second ring :—

Sovereigns—
June 16 .... $13,100 at 18.30-17.50-80
South American Ounces—

June 16 ..G 10,000 at 34.50-34
June 16 ..L 26,000 at 43.20
June 16 ..M 63,000 at 35.30-20
June 16 ..O 17,500 at 35.20
June 16 ..P 22,000 at 36.20

Catalinas flared up to 14.30 at the second ring, but could not hold out, falling back to 12.70. Nearly ten thousand shares were sold, and we saw on 'Change a lot of old familiar faces who had abandoned the precincts ever since the stock languished at bed-rock prices. They all looked in good spirits and wished to sound the market if there were any prospects of the stock rising to 50, nay to par. Constructors were quoted at 4 and 4.20, irrepressible Spanish Bank shares at 88, Bolsa Bank at 34. One hundred National Bank shares were sold at 32.

Messrs. Blaquier and Ayerza, the well-known cattle-brokers, sold to-day for account of Don Gregorio Soler 4500 steers, from his estancia in Monte, at $29 ⅝ per head ; buyers, the saladeristas Messrs. Santiago Rocca of Magdalena. The price paid sounds high.

Rio telegrams announce a sudden rise in the rate of exchange up to 18¼d. on London. The quotation last week was 17¼d.

There was a rumor on 'Change to day that several officers had come from Rio to supply the capital for our proposed Banco Unico. This sounds very much like a hoax.

The meeting of Italian workmen at the Boca yesterday to discuss the expediency of supporting the Italian banks has borne good fruit. Scores of Italians entered the Banco de Italia to-day to return the deposits which they had withdrawn during the panic of the first days of the month. The hall of the Bank is beginning to assume its normal appearance again. The sub committees of depositors have enlisted the support of many hundreds of depositors.

The Municipality, they say, will apply this month through the National Government to Congress for a new loan of twenty million dollars, in bonds bearing 6 o/o interest per annum. It is to be hoped that no such loan will be granted, as it would be a ruinous business and a fresh burden on this overtaxed population. Let the Municipality retrench and reduce its staff to one-half its present number—this is better than hawking bonds about the market at 70 per cent discount, as happens with the Municipal lottery bonds.

Mr. Gregorio Cerro, ex-provisional governor of the Rio Negro territory, was welcomed to-day on his arrival from Colonia. He says that the works of the new railway will soon be pushed ahead with activity. The Colonia dealers are doing a very small business and lands are neglected.

At a late hour we were informed that the Deputies sanctioned the Moratorium Bill in exactly the same form as sent from the Senate. We may add that President Pellegrini and his Cabinet will not promulgate the Bill for the next five days: during that term the President of the Republic will listen to the voice of the public, as expressed by the Press, committees, meetings, etc., and other channels of opinion. We may, therefore, look forward to a pitched battle between the immense majority who oppose the Moratorium and the minority that support it. The results are a foregone conclusion President Pellegrini will put his heel on the Bill and veto it. The line of conduct observed by the President at this juncture of affairs deserves great praise; if the Bill is made law, it will be because the commercial body cannot fight their own battles. "To be or not to be."

Arrivals at the Central Produce Market on 13th and 14th inst., ten wagons with sheepskins, hides, horsehair and 46,079 kilos of maize in cob. In lighters: 26,880 kilos of wheat. In carts: 12,937 kilos of wool.

The *Montevideo Times* explains the delay in the departure of the R.M.S. Magdalena from Montevideo as follows:

"The R.M.S. Magdalena was all ready to start on Thursday afternoon, but at the last moment, in deference to wishes expressed by Government, the agents consented to delay her sailing until the next morning. The reason of this was that the documentary powers to be entrusted to Dr. Ellauri were not entirely complete, and the Minister of Foreign Affairs was working until late on Thursday night to complete them. Dr. Ellauri embarked yesterday (Friday) morning, the President of the Republic, the Ministers of State, and a large party of friends going on board to see him off, the steam tug Rayo being specially engaged for the party. Sr. Francisco Bauza, Minister to Brazil, left in the same vessel. The Magdalena sailed about noon yesterday. She has a very full passenger list, but we understand no objections were raised to the delay."

A Committee has been formed, under the presidency of Sr. Machain, with the object of presenting a testimonial to Sr. Marcos Paz, in token of the high appreciation of the manner in which he has conducted the affairs of the National Bank in Rosario ever since he was appointed as its manager. We understand the testimonial will consist of a gold plate, towards the cost of which a considerable sum has already been raised.

Advices from Paraguay say that the "yerba mate" plantation belonging to Don Tomas Larangeira has been sold in Rio Janeiro to a company for the sum of $1,000,000, half cash and the other half in shares of the company. This is one of the largest transactions in Paraguay for a long time.

The courteous purser of the R.M.S. Elbe, Mr. F. H. Messum, favours us with the following list of passengers arrived by the Elbe :—

Mr C. Thisted, Mr. G. Kantorowicz, Dr. A. Leeson, Mr. and Mrs. Jas. Craik and maid, Mr. and Mrs. J. F. Allan, Mr R. SchleuzMulheimer, Mr. J. C. Getting, Mrs. Herbert Crabtree, Mr. and Mrs. H. Mathieson, Mr. Aug. Casier, Mr. F. Martin, Sra. Elisa Fernandez and 17 third-class.

Landed at Montevideo—Mr. F. Hebblethwaite, Master Sloane, Miss Sloane and six third-class.

We note an application has been filed for a patent for an "Argentine Salubrious Tank." The applicant is Mr. Guetral.

The Minister of Finance has fixed the gold price for payment of duties to-morrow at 340.

The Custom-house receipts to-day were $63,008.

"Exchange is no robbery" so says a certain lady,
Though some people think it is all the same,
Our prices are proper, as sellers are godly,
We sell and we buy and exchange.
Pray give us a trial, and we know you'll say,
That we strictly have kept within range,
When we tell you that "ours" is the place of the day:
The English Book and Music Exchange.

DR. J. COLLIS BROWNE'S
CHLORODYNE.
The original and only genuine

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis Asthma.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.
From Symes & Co', Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Lear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medecine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazuars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Sapasms, Crampas, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation dury many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Convlction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co, Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.
CAUTION.—Vice-Chancellor Sir W. Page Wood stayed that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See the "Times," July 13, 1864.
Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.
CAUTION,—Beware of Piracy and Imitations.
